## Made in the USA Solves Supply Chain Risk.

**Domestic Production  
Solves Supply Chain Risk**

Supply chain issues still matter because global instability still exists. Don't risk your project with overseas "just in time supply". AutoStoneUSA is the guarantee of success. Today, tomorrow and for decades to come.

## Showroom Floors

# Service Drive Floors

Surface helps Dealers manage STF (slip, trip, and fall) risk.

# WorkShop Floors & Walls

Declared to meet STF ANSI A326.3 4.1.5 O/G (Oils/Grease).

# Why Choose AutoStoneUSA?

## The Best Information & Website to Support Your Project.

AutoStoneUSA is focused exclusively on the automotive dealership facility. We have web pages dedicated to both **Genesis** and **Hyundai**. Our competitors feature “mom’s, kitchens, and kitten’s”, but not automotive focused. AutoStoneUSA members are automotive industry experts who understand the dealership facility and your needs.

## American Jobs Build American Communities.

Support local American tax base, communities, workers and families. AutoStoneUSA materials raise families, pay taxes and create the foundation of American society. Supply your dealership project with high-quality American products.

## Make Sure Your Project Benefits from AutoStoneUSA Pricing.

AutoStoneUSA materials must be listed on your finish schedule and plans for our tiles to be quoted to bidding flooring contractors. Genesis dealers won’t get the benefit of competitive bidding unless AutoStoneUSA is listed by your architect. We are asking for an opportunity to compete for your business! Below lists simple steps you can take to help make sure this happens.

- Dealers:** ask your architect to include AutoStoneUSA materials on their finish schedule.
- Dealers:** ask your GC to request AutoStoneUSA pricing from their flooring contractors.
- Architects:** please update your finish schedule to include AutoStoneUSA materials and ask the GC’s to request pricing from their flooring contractors that include AutoStoneUSA materials.
- GC/Builder:** please request your flooring contractors to submit pricing that includes AutoStoneUSA materials.
