

"automotive flooring experts"

**AutoStoneUSA tile is large format 24" x 24" size.**

- \* Other tile is small format 18" x 18".
- \* AutoStone is 40% larger tile surface.
- \* Larger tiles look modern and not dated.
- \* **Bigger is better!**

**AutoStoneUSA has 60% fewer grout lines.**

- \* **Less grout = Less grime.**

**AutoStoneUSA tile has rectified edges.**

- \* Other tile is a "pressed" tile without rectified edges.
- \* Rectified tiles are higher quality and allow for tighter grout joint, uniform layout and better visual aesthetics.

Clean.Tech Series includes ultra-cleanable technology.

- \* Improve dealership floor appearance with a floor that cleans better and performs better.
- \* Includes a PERMANENT sealant that seals surface micropores to retard permanent staining.

Get better automotive retailing results.

- \* Brightfinish is a PERMANENT sealant applied during manufacturing.
- \* Brightfinish includes a slight surface sheen that reflects light and makes floors look fresher, lighter, cleaner, and brighter!

AutoStoneUSA Subaru Program includes a companion (same size) Polished tile option.

- \* Upgrade and enhance the Subaru retailing experience with this companion tile.
- \* Affordable, in-stock and ships with showroom tiles!

AutoStoneUSA has tiles for all areas of your project including:

- \* Customer Restroom (floors & walls).
- \* Tech Locker Rooms (floors & walls).
- \* Service Drive (interior & exterior).
- \* WorkShop & Oil Change facilities.

"automotive flooring experts"

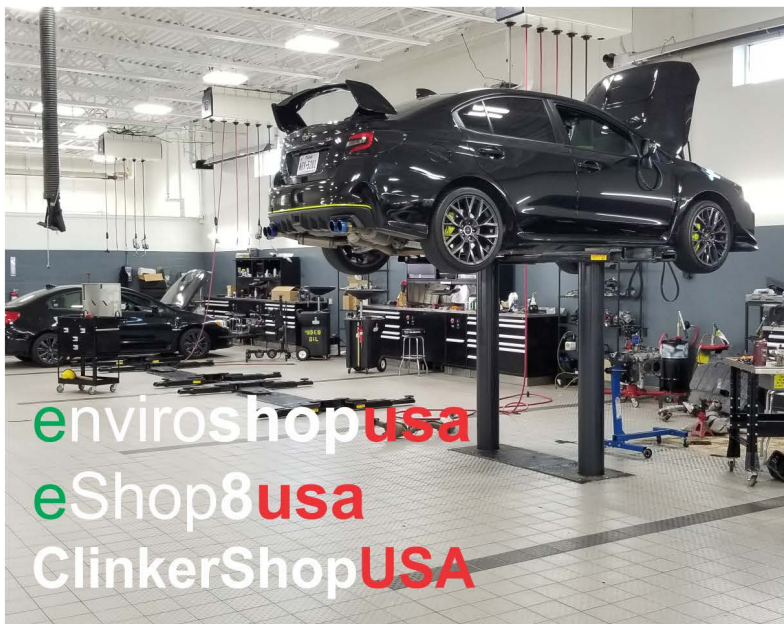

Upgrade the service drive at minimal cost to you project! The service drive is the most under-measured area in automotive retailing.

- \* This is where customers & employees meet.
- \* Designed for higher risk environments of use.
- \* Helps address STF risk with higher traction surfaces.

AutoStoneUSA has approved service drive & workshop tile options.

- \* Never resurface your floor(s) again!
- \* Affordable!
- \* Ships on the same truck(s) as the showroom tile.
- \* Made in the USA.

## Made in the USA.

Our head quarters are in Texas, but we manufacture in Tennessee! Made in the USA assures your project of on-time delivery, quality product, supply chain integrity, and reduced carbon foot print!

## Build with AutoStone.

Our program supports Subaru dealers with the highest quality, most affordable and comprehensive floor tile system for your dealership project. Affordable, high-quality, and easy to do business with are what you will experience with AutoStone.

## Warranty.

AutoStoneUSA tiles come with a materials warranty which confirms our high-quality product conforms with ANSI porcelain tile standards. If you suspect any tile as not being correct - DO NOT INSTALL IT! Take a picture and send it immediately to your Subaru support team. We will help you right away!

## Installation.

AutoStoneUSA has tile installation recommendations with quality control (QC) standards which deliver better results. When you receive your project quote it will include our manufacturer recommended tile installation practices.

## Cleaning & Maintenance.

AutoStoneUSA provides detailed and specific tile cleaning and maintenance recommendations. Ask for, or download the Subaru "Culture of Clean" which helps dealers maintain your dealership in a "like new" appearance.
